#### **A. PRINCIPLES of the Financially banking resource-based technological mafia-driven materialism**

##### **1. The principles of the Financially banking resource-based technological mafia-driven materialism**

The only purpose is the profit and enslavement of peoples, states, governments, creation of monopolies.

Participating countries - banks, financial institutions, companies - oil, resources, steel, oil, food, medicines, fuels.

Finance and money determine politics, wars, peace.

Primary goal and approach: Central bank formation in the major countries to control not only finance, but also economic activity and politics. These central banks will be governed by governments, states, parties, citizens, a whole territory, in terms of

money, investment, resources, use, in whose behalf and for what.

These are the initial steps. Establishment of central banks in the major countries in fact to control not only finance but also economic activity.

Establishment of central banks in countries owned by private individuals and private banks. This controls the economies of these countries, governments of these countries, citizens, over entire societies.

Where central private banks are not allowed to be created in the countries - it is the occasion to generate civil wars, wars between states, trigger "revolutions" - to finance them from the bank-financial resources technological capital.

Creating conditions for destabilization of the country concerned, importing corruption, provoking a civil war, provoking war, creating conditions for the maturing of an economic crisis, leading to the destabilization of the political power in the country.

Generating and provoking wars, conflicts, fickle confessions, financing both the warring parties with loans - with the ultimate goal of profit, debt, then giving credit for the recovery of these states, lending to rebuild the economies of the warring states, shunning companies managing resources - oil, gold, trade, medicines, food, creating a military situation - unlocking - an institutional occasion.

System: Funding both sides to wage war between them. Practical parties are indebted to banks, then banks and financial institutions finance the recovery of their economies. Profits are enormous. The profit rate for weapons and ammunition is the highest and most rapidly recoverable and revamped.

They finance supplies of weapons, ammunition, food, clothing, ammunition, extra equipment, they actually manage the war process - when there is an advantage for one side, for the other.

Realistically with supplies of weapons, ammunition, they manage the process of war - which side takes precedence and when and for how long.

### ***B. The Hidden Ideology of Finanosov Bank Resource-Technologically Mafiaized Materialism by Lord Prof. Momchil Dobrev and the Real Hegel Theory according to Lord Prof. Dr. Momchil Dobrev***

The original ideologist is Hegel. Hegel says: Conflicts create a story.

If conflicts are controlled, managed, and created, what will the story be - induced - generated story. This is stated by Lord Prof. Momchil Dobrev as counterpart and critic of Hegel. Finishers and bankers create organize, plan the beginning - the cause, the place of the end of each conflict. The funding of the conflict - both sides.

Existing power is the "thesis" that generates its opposite - "antithesis" The conflict that arises between these two forces creates "synthesis". Conflict conflicts.

The wars represent the synthesis we see according to Hegel's Theory.

Wars create benefits - profit, interest. According to the thesis and the intrigue are necessary for the movement of history. The truth is that both the thesis, the antithesis and the synthesis are important for the capital and the fruits of this capital - the profit.

The trilateral commission openly admits that solving for war and peace is only taken by a few elite people. All property common source - Hegel.

Hegel teaches that the state is God, and the only obligation of the citizens is to serve the state, thus serving God.

Historical dialectics - all historical events emerge from conflicts between opposing forces / thesis and antithesis /, but which are generated by financially resource-based technical mafia-driven materialism, adds Momchil Dobrev.

That's the real truth.

Supporter and further developed Hegel's theses, but in our opinion, in a very consciously wrong direction that serves the purposes of financially banking, the

technically manipulated materialism is fed to Rothschild Karl Marx - a Jew.

Marx and "capital" treat capitalism as a "thesis," communism as "antithesis".

The man who uses Hegel's theses is JM Morgan. JM Morgan studied in 1850 at the Göttingen University in Germany - which center was Hegel's activity. Morgan uses all the parties in his favor. He supports Republicans, Democrats, a Communist Party, and his closest is Julius Hammer, the father of the famous Armand Hammer.

The real theory of Hegel and Marx is the glossy cover that has nothing to do with truth and reality.

The practice is to manipulate people, left, right, centrists, and others.

One of the most prominent figures of modern history that has given its appreciation of the "laws of history" is Karl Marx.

Marx formulated an entirely new historical philosophy that played an important role for billions of people on earth, whom Momtchil Dobrev believed to be deliberately misguided and directed at the masses, with the ultimate goal of manipulating capital and bankers and their benefit from wars, conflicts, and so on.

Actually, according to Momchil Dobrev, Karl Marx has committed a falsification of history.

The present material proves this - the mistakes and contradictions of Mark and Hegel. Marx is Jewish.

He likes to collect huge amounts of information, but only to use it against his opponents. In the beginning he deals with law and poetry. For years he has been following Hegel's footsteps. Marx behaves like a prophet and thinks in Hegelian categories, establishes those, antitheses and synthesis, without ever giving logical evidence.

He is subordinate to his teacher Hegel.

Makes the same mistakes and adds new mistakes.

Opponents get lowered through several high-spirited words. With his pen, he tries to inspire the masses, constantly dreams of revolutions, and escapes extradition from France. Everywhere he sees the flames of the revolution.

His predictions almost never happen and come true.

Dream and pray for coups and revoltsii, but in terms of theory and mafiotizma Financial - Banking Technology Resource mafia materialism Lord prof. MomchilDobrev each revyalyutsiya coup and is funded by zainteresovanitestrani - ie financiers and bankers ..

The criticism of Lord Prof. Momchil Dobrev to Karl Marx.

**C. A truly internationally from the 18th century,  
FINANCIAL BANK RESOURCES  
TECHNOLOGY MAFFIOTISED MATERIALISM**

**of Lord Prof. Momchil Dobrev is working, not the historical materialism of Karl Marx.**

Thesis number 1 - at the beginning was matter.

It formulates the principle supremacy of matter without any evidence, and makes conscious misconceptions. Actually based on these theories developed by Lord prof. Momchil Dobrev - cosmological theory, information theory vortex fields Theory and practice of free energy, Theory of information and energy medicine, Theory of the universe, theory and practice of energy informatsonnata genetics , energy-information psychology and energy-information psychiatry, the Spirit-consciousness-the thought is primary. Then is the matter.

Thesis number 2 - BITE DETERMINES CONSCIOUSNESS

Ie. the economic conditions / existence / determine the thinking and the personality of an individual / consciousness.

According to the above-mentioned theories of Lord Prof. Momchil Dobrev, the spirit-consciousness-thought determines being, not vice versa.

In 1933, Sigmund Freud criticized Marx. Even the insatiable fact that different people, races and peoples under the same economic conditions behave differently, excludes absolute power from an economic moment. "

On the basis of this "erroneous" theory, Marx develops his historical materialism that only the economy and the ownership of the means of production are decisive.

Historical materialism believes that, ultimately, goods, products, and property determine the course of history, as they promote the social classes.

Created by Lord prof. Momchil Dobrev banking financial resource tehlogichen mafia materialism prove after a full analysis of the history of finance, the economies of countries around the world since the 13th century, the bankers - financiers and generating psazdavayki conflicts, wars and others make history.

Ie. Prof. Momchil Dobrev - Halachev's financially-funded, technical, mafia-driven materialism, created by Lord Prof. Momchil Dobrev-Halachev, is the truth, and the historical materialism of Karl Marx is manipulation.

Thesis number 3 - story is a story of class struggles ..

Marx really believes that all human history can be reduced to class struggles.

Marx sees history only as a history of class struggle, with the exception of prehistory. It distinguishes between individual stages of development.

**D. A truly internationally from the 18th century,  
FINANCIAL BANK RESOURCES**

**TECHNOLOGY MAFFIOTISED MATERIALISM of Lord Prof. Momchil Dobrev is working, not the historical materialism of Karl Marx.**

Thesis number "4 - the class struggle necessarily leads to the dictatorship of the proletariat, and in the end all classes will be" dashed ".

**Historical and Financial Evidence of the Financial Banking Resource Technique of Mafiaized Materialism by Lord Prof. Momchil Dobrev.**

**1. Historical review and proof of the above**

On August 15, 1871, Pike threw his plan to conquer the world through three world wars in front of the Illuminati Mazzini.

First World War - staging to destroy Russia's royal land due to the possession of huge resources and to come under the direct control of bankers who are interested in resources - especially oil and metals. The Second World War increased the Russian influence and created the state of Israel in Palestine. For the next one.

The main reason for the First World War - the deliberate indebtedness of the economy. The First World War and the Versailles Treaty - led to the Second World War, - Germany's over-indebtedness to the World War I winners.

By war, a country always divides into two sides. But the same country finances these countries and actually governs the policy of the whole state, controls the industry, raw materials, and so on.

American Civil War 1861 -1865.

In the American Civil War, 1861-1865. The northern states, which oppose slavery, are fighting the southern states, advocates of slavery.

The Rothschild Bank in London finances the northern states, and Rothschild's Paris bank finances the southern states. By war, a country always divides into two sides. But the same country finances these countries and actually governs the policy of the whole state, controls the industry, raw materials, and so on.

the Netherlands, eastern India, Persia and IRAC. And the localities in the Middle East.

At the end of the 19th century Russia has developed a remarkable oil industry. The oil fields in Baku are in the hands of the Swedish brothers Robert and Ludwig Nobel. Russian oil production amounted to 1874. At 600,000 barrels, after ten years, it reaches 10.8 million barrels, about one-third of American production.

Petroleum entrepreneurs Bungee and Palashovski built with the financial help of Rothschild the railway line from Baku to Batumi on the Black Sea - the port of the most important oil harbor.

In 1886. Rothschilds founded the Caspian - Black Sea oil company Caspian and Black Sea Oil Company.

The distribution is among the four companies - Standard Deal Royal Death Shell of Detergent, Nobel Brothers and Rothschild's.

Germany has concentrated its interests on Turkish oil reserves in today's Iraq. Build the Baghdad Railroad.

German companies are allowed to use all oil stocks within a perimeter of up to twenty kilometers from the railroad. Supplies to Germany are secured and can not be jeopardized by UK blockades.

The Berlin-Baghdad railway line For the Britons this is a strategic threat. For the British, only a small strip - Serbia - prevents Berlin-Baghdad from being overcome. -

That is why it is the occasion - the outbreak of Sarajevo.

**3. The creation of the Federal Reserve 1913**

The creation of the Federal Reserve - a private institution to print US dollars and control the real world finances.

In the US 1913, the federal reserve was judged. The biggest stockholders of the Fed are:

- 1). Banks of Rothschild from London and Paris.
- 2). Lazard Brother Bank from Paris

- 4). Warburg Bank from Amsterdam and Hamburg

The value of bank notes printed from the Federal Reserve is 50-70 cents. Money in circulation issued Federal Reserve banknotes are 263 dollars in 2002. US liabilities alone are over \$ 4 trillion in 2002. The Fed is a private institution.

With the Federal Reserve, the United States is thrown into utopian sovereign debt to bankers. Interest payments are guaranteed through tax revenues. Where they can not be repaid, ownership of

state-owned banks is transferred to English and / or French banks.

#### **4. The Oil and the First World War**

Before the outbreak of World War I, there was an agreement between Russia, France and the United Kingdom about how the raw materials would be distributed after the end of the war. - "Isaac - Pico"

Crucial for World War I to take place are transport and supply - the supply of arms, ammunition and other warring parties.

#### **5. Germany before the First World War**

The unification of the German states under Bismarck violates the "equilibrium of forces", which has existed for more than two centuries in Europe. Until 1871 England was the lord of the European continent. Turning German into a strong state is a threat to England. Rise is thanks to "Iron Chancellor" Otto von Bismarck. In 1871. He was proclaimed Germany's first Chancellor. In his rule, he was victorious from Austria and the French at the Battle of Sedan.

After 1884. Germany acquired multiple colonies in Africa, Germany encouraged the storms in Transvald and the Orange Free State until the war with England from 1889 to 1902.

Until 1902 Germany acquires the Carolina, Marshall and Mariana Islands, parts of New Guinea, and Samoa in the Pacific, as well as a naval trading base in Shandong, China.

International Banking and affiliated to Germany, and seeks to isolate and control the country. For this, between 1894 and 1907, they came to the conclusion that Russia France and England and other countries would join Germany in case of war.

#### **6. Fighting raw materials - oil.**

For only a few years, the weaponry industry has made an unexpected drop in production, it is about aircraft tanks, fuel supply, optimization of land and maritime transport.

The battle for black gold is at the heart of the two world wars.

1847. Rothschilds take money on Ireland in connection with the famine, finance the Crimean Nine, and give money to England to buy half of the Suez Canal from Egypt in 1876.

Creditanstalt Bank in Vienna is run by Solomon Rothschild, becoming the depository bank of Austro-Hungary.

The British Bank of Rothschild finances the gold mines of South Africa.

19th Century London Loan Deposits is 120 million pounds, compared with 40 million in New York, 13 million in Paris and 8 million in Germany.

#### **7. The First World War**

The German cannons are devastated by the Russians. Russia's entry into the war is a catastrophe - it is not accidental.

While the UK guarantees full support for Russia after the war, England has reduced its assistance to Russia 10 times, according to the deal. This is not accidental.

Only 1915 to 1916. On the Eastern Front Russia is losing millions of soldiers. Six riflemen had a shotgun.

The way for the preparation of the October Revolution is the same as that of the French Revolution. - the first condition - to create the conditions for ripening the economic crisis, which would lead to the destabilization of the political power in the country.

The financing of the October Revolution was funded by American banks in 1903. Teodor Roosevelt met the representatives of Children's Nativity, the oldest public Jewish organization.

Napoleon Levy, the author of the protest diplomatic message the US sent to Russia condemning the pogrom on April 19, 2003, was also present there. in Chisinau.

## BANKS AND BANKS

The banking system at the beginning of Babylon about 3000 years ago

The reason for its discovery is gold.

The goldsmiths, instead of carrying it with them, left it to a friend of their own trust.

He gives them a piece of parchment or skin with their own signature or gait.

Later, who holds this receipt can get the gold.

This system is becoming more popular.

Specialized people become gold watchdogs

In trade, people who hold such receipts pay with them for the goods. It is not necessary to take the gold.

It only becomes a transfer to the receipt of the receipt.

Although gold does not belong to them, the owners of these safekeeping stores lend them to other third parties to other merchants who pay them a corresponding percentage for their use.

Later, these hide-and-seek guards are shifted under the name of "leuars".

In the Middle Ages usury is forbidden.

During the Crusades, the first international bank was born.

By the middle of the 15th century, Cosimo de Medici formed an international bank with a headquarters in Florence with a branch in Avignon and London.

In the Roman department, the bank keeps the bills of the pope's assets. The bank's interest rate is 10 percent.

In the 16th century, a huge amount of gold was imported from South America into Spain, forming the first modern banks, the Banco di Santo Spirito in Rome, the Monte de Pietas in Naples, the BANCO DIPALERMO in Sicily.

Next phase - using deposits and savings of people.

They pay less, but lend them to other persons at a higher rate.

The name "National Bank" trust and conviction.

The first such bank in 1674. takes the name of the Swedish National Bank.

I followed the British National Bank in 1694.

Wilhelm's \$ 3,100 million loan was lent 8 percent. They are given a monopoly right to print money and receive deposits.

Rothschild sends his 5-sons to Paris, Vienna Naples, Frankfurt, and London in the middle of the 18th century.

The fastest communication system with pigeons, couriers and agents.

Political and Economic Intelligence - Advantage.

He first learns about Waterloo's victory and accumulates tremendous wealth on the stock exchange.

It finances railway lines, construction companies, international projects.

Heine says: Money is God of our time.

1847. Rothschilds take money on Ireland in connection with the famine, finance the Crimean Nine, and give money to England to buy half of the Suez Canal from Egypt in 1876.

Creditanstalt Bank in Vienna is run by Solomon Rothschild - becoming the depository bank of Austro-Hungary.

The British Bank of Rothschild finances the gold mines of South Africa.

19th Century London Loan Deposits is 120 million pounds, compared with 40 million in New York, 13 million in Paris and 8 million in Germany.

This is the conclusion of Robespier himself.

By comparing the revolutions and wars in France 1789, England 1640, Russia 1917, Germany and Hungary 1918-1919, and Spain 1936, everything resembles preparation, funding, who stands behind these conflicts and their goals.

### **9. Historical evidence for funding and the instigation of the Second World War**
