

# A Study of Recent Verdicts on Women Trap and Sexual Assault in Working Places

Sohan R Naik<sup>1</sup> and Dileep M R<sup>2</sup>

Department of Computer Science, Alva's Education Foundation, Moodbidri, Karnataka, India

## Abstract

*Major problem lies under human resources, the problem is all about rape, harassment, murder, etc. 'Rape attempts' are carried out in society since from centuries, sexual harassment has been affected female recipients in work performance and this issue has become the greatest problem in present generation respectively and may be continued in every edge of tomorrow. Rape has plugged the world for centuries and still been continuing. Past three years report says, major rape attempts have been increased and going on increasing while. Presently we are losing the strength of girl/women participation in any society development.*

*Major action against rape attempt was swept way from political hands. Hence, in this paper instead of considering entire problems of society, only the issues regarding woman who are getting sexually assaulted. This paper also provides the alternative solutions for many issues and glances over the action of violence, provides the best possible punishment for the commits.*

**Keywords:** Women trap, Assault, Violence

## I. INTRODUCTION

By understanding present generation way of thinking, it really feels more guilty and disturbed. Though present is 21<sup>st</sup> century, the world of doubt. Someone truly told that 'world' is really gone change a lot in future and that is approximately true, as all are now experiencing present horrific generation. Generation is just a name; reality is something like development. For present day people everything looks like play thing, for an instant lets consider a realistic example – consider war, murder, rape, harassment ,etc people are moving like 'train', they won't care others pain or problem, they are on their way and on one track of development. If anyone interacts with their happiness or with their life than they just destroy or do one or other thing. People want to grow further; they want to make money and want to spend money.

Does one really think that women are back in performance, development or their aim and they don't have dreams like other? "Yes" they do have, they have

many responsibility to carry. They always aim for stars, the most wonder thing is that they all care about as. Why they are been dragged to ground. For each and every scope of occupation there is problem regarding women's hand in work. Is there any threat to world if they work? Are they dragging us down<sup>2</sup>? Why that many rules are made in society for girl child<sup>3</sup>? Why people of society are making unwanted rules for women/girl? M Pallavi Jane Pereira and Edmundo J. Rodrigues [5], 2014 expressed something brilliant sentence, as all know that women play a wonderful and fantastic role of homemaker and she is most soft hearted smart and hard worker

As report that was enquired and discussed with neighbor. The answer was quiet simple from their point of understanding. One said, "Family fears to send girl/women to work because they don't want to lose her, what if she is raped, and sexually harassed in work place" Other said<sup>2</sup> society talks, we don't want to be blamed in society if something happens to our family girl, if something happens we lose our status" best answer was "society people them self are on ground, illiterate, and they even want to pull others to ground by forming some unwanted rules regarding girl child", discriminating a girl child in society is not a great thing. The great thing is when the people push them up to sky.

Heard many story of girl/women bitten down on floor in some place, when the matter comes regarding 'job, education and freedom' in their life. Over all 65.46% of women in our country are literates and remaining 34.54 are illiterate according to 2011 scenes. Many girl/women lost their job and education manly because of rape and harassments in their locality. According to the National Crime Records Bureau (NCRB) 2013 'ANNUAL' report, 24923 rape cases were reported across India in 2012 according to (NCRB) of 2015 rate report say that maximum rape attempt were been committed in Madhya Pradesh and Jodhpur was highest per capita rate on rape report in India. 'Rape is considered as fourth most common crime against women in India'. Merely like 848 Indian women are Harassed, Rape and Killed every day

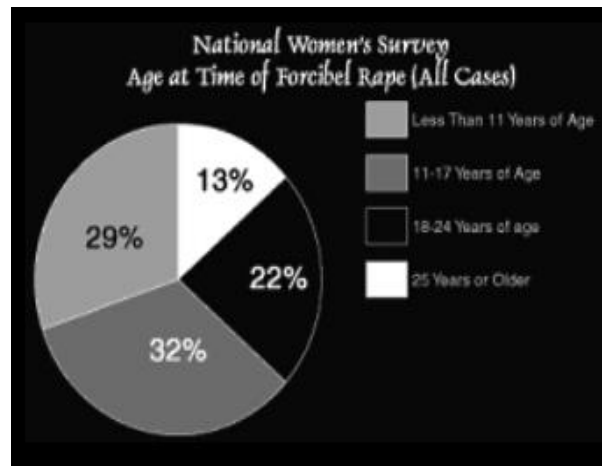

according to December-21-2012 –says that seven out of ten are sexual harassed. As per recent report against the girl child abuse rate says that for every hour four children are victims for sexual abuse, now days result on rape has terrified us. Our society has programmed to remain silent about sexual abuse. Most horrible, November-3-2017 a 1year old girl was raped by 33year old neighbor in outer Delhi [1]. A girl is confused about her society and their way of thinking is shown in figure-1.

Figure 1: women under threat

Normally no one needs an explanation regarding this kind of topic; because, everyone thinks they are smart enough in knowledge of rape awareness and handling society. Actually no is aware of it, especially present day teen. As per report in Google, most of rape attempts are carried on university student and working women. Rennison C A [2], 2002, presented report that, over 91% of the victims of rape and sexual assault are female. Miller T R et al [3], 1996, demonstrated a report that, around 8 out of 10 rape victims know who actually did sexual attempt on them. They know what just happened with them but they keep silent till end. Women have same respect and priority in our society respectively. Having 50% more responsibility than men, they do survive in their life; it's not that easy to take place of sister, mother and responsible one. First of all they are gender decremented and sexual assaulted, and secondly, they are blamed for many more reasons. Lastly, they are murdered for no reasons, why actually it's happening? It's all because society is lacking behind knowledge of life. As a woman in her work place is sexually harassed

and raped by her own working colleagues and member, around like 8% [4], and they are blackmailed by them for many reason like salary, work status, and for promotions. They are made to stay in work place even after working hours and providing then heavy duty so that they can carry their work in night shift, most of this case are been done in work place. There is no doubt of saying women is been dragged down in other reason too, reasons are simple dowry, inequality, and they worthy of a lower Social status as we compare over the man around work [5]. In every rape attempts there is young man, who is not aware of sexual activity; he is just drowned in poison of lust. Black, M. C. et al [6], 2011, built one statistical and research methodology that more than one-third of teen girls and women who reported raped before the age 18, and they experience rape as an adult. According to the range of age groups of victim went under rape attempts are shown in figure-2.

Around 34% are sexual abused and rape been done by their own family member [7], and when it comes to the matter of compliant and report from victim will be closed by their own family members. Same activity takes place in work places. There are many children who never knew the word 'rape' in their life, but they were raped badly. Around more than 3.25 lack children are at risk and threat of becoming victims of commercial child sexual exploitation every year [7], and it is dramatically increasing on and on. Only 12% of child sexual abuse is reported to the authorities [8]. When something is committed on girl then Public is totally ready to take over the responsibility of strikes, rally, and procession and other activities. Unfortunately, not everyone is ready take the part in stopping the sexual activity except some social activists and some Countable number leaders in certain places. The Report showing victim taking action on commit as shown is figure-3.

Figure-2: Complaint Report [9]

As shown that, 10 women have been raped by 10 male, as per report all 10 will file compliant to police but only 50% are true and reaming are wrong report, first reason is all because they don't want to expose the reality what had actual happened at sight, secondly, they care about their family status and their own in society. Thirdly, they are been threatened by person. And lastly, sometimes their report will be gone through the politically threads, so the victim might be given proper report but it will be proved are false by corruption issues, other 50% go for report because they keep their way to seek justices, some time they get but sometimes they won't, those will fight for justice till end. Around 4% reports are given false by victim itself in authority. Table-1 shows the report of victim's undergone rape attempts in different years. As per M Pallavi Jane Pereira, Edmundo J Rodrigues [5], 2014, this is what the drastic comparison **Incidents of Crimes against Women** is going on as per the report of 2011 and 2012.

## II. PROPOSED METHODOLOGY

Though women are viewed as threat and burden, morally they are much effective then men and smart hard workers, but the concept of inequality making lots difference now a days. Always country government proposes one or other rule for providing equality among gender but unfortunately only 70% of society follows, though others just fight for no reason. This generation is moving worse than expectation.

In the days of kings and warriors rapist was not sentenced for prison but he was executed for death, if a man commits the rape on girl/women he was taken to judgment and then was taken to execution place soon he was proved as evil, he was hanged, tortured, chopped, stone throw, street rolled, etc were punishment on evil person. There was no delay of taking decision in behalf of matter. There are more than 15 countries which are following rule of execution, so as per the worst condition going now days, we must consider those rule to be accomplished in every country; by sure there will be the drastic reduction of rape and sexual assaults in country. We need to follow those method for reduce the causes, when a person commits horrific moment with women, he is to be first enquired in court and when is proved as wrong, he is to be executed in public like the method our kings and ancestors used to do, by executing him in public, the public will watch him regretting the horrific mistake he had committed and they won't dare to repeat that mistake. If we execute him separately in central jail or in execution booth than no know one will see the pain and they would repeat the mistake. So following up this method would change world again. Method of public

**Table-1:**  
**Incidents of Crimes against Women during 2007-2012 and percentage variation in 2012 over 2011**

S.N.	Crime Head	Years						Percent variation in 2012 over 2011
		2007	2008	2009	2010	2011	2012	
1.	Rape (Sec.376 IPC)	20737	21467	21397	22172	24206	24923	3.0
2.	Kidnapping & Abduction (Sec.363 to 373IPC)	20,416	22939	25741	29795	35565	38262	7.6
3.	Sexual Harassment (Sec. 509 IPC)	10950	12214	11009	9961	8,570	9173	7.0

execution carried on by early day leaders for the rape attempt as shown in figure-4.

Figure-3: Methods, Man being executed in public [10].

Figure-4 shows the methods that might save countless number of women in world from rape and sexual assaulting. So, people will sure stop committing sexual attack on women all because of fear of horrific death sentence in front of public.
